### COMPLEXION

● First, apply primer so that your make-up will adhere more evenly. **Monu Line Smoothing Skin Perfector** (£16.25, monushop.co.uk) adds radiance and makes pores and fine lines less noticeable.

● Cover blemishes and under-eye circles with concealer and translucent powder – the **Bobbi Brown Creamy Concealer Kit** (5, £23.50, bobbibrown.co.uk) contains both.

● To achieve a flawless, velvety finish, use a mousse foundation. For the lightest, most natural look, blend in with a foundation brush. Try **Maybelline Dream Matte Mousse Foundation** (3, pictured in **Nude**, £7.69, tel: 0845 070 8090) and apply with **Clinique Powder Foundation Brush** (4, £20.50, clinique.co.uk).

● If your T-zone tends to become oily, dust with a translucent powder. I like **Shu Uemura Face Powder Matte in Colourless** (£26.50, shuuemura.co.uk).

### CHEEKS

● Use bronzer to contour your cheekbones and add a glow. Choose matt bronzing powder in taupe or natural shades – nothing too orange. Try **Bourjois Mineral Radiance Powder** in **Hâlé** (2) or **Brun Abricoté** (1) (£9.49 each, available nationwide). Use a blusher brush to apply just under your cheekbones and sweep up towards your ears.

● A dab of highlighter on the highest point of your cheekbones will define and shine. I like **Tess Daly Illuminating Face Balm** (£9.50, from marksandspencer.com).

## NATURAL BRONZE

There's an art to achieving summer's 'no-make-up' look. This year it's all about sun-kissed radiance
