

V TRIED & TESTED

Cracking the Da Vinci code - Time to be the Perfect man!

Not so many years ago it was...shall we say a bit suspect for guys to visit hair and beauty salons - It's seemed as if real men were confined to corner shop barbers, and questionable daily newspapers.

Beckham, Brad and the male a-listers changed all that - thank goodness and the last few years have seen the rise and rise of male skin care products. I was invited along to Bellissimo to try the all new Vitru range - now the thing is Vitru products work with your skin, supporting its vital functions, enhancing its performance and helping to combat the stress inflicted by everyday life.

On arrival I was welcomed by the charming Danika then treated to the full works by Debbie who made me feel 100% relaxed. The list of treatments were amazing :

Cleanse - Fresh wash (waky waky), Toning Mist, Skin scrub, Hot Lime Soak (compress to face / neck / shoulders), Eye gel, Facial oil massage, Algae mask, Chest / arm massage, Age combat to energise skin and a zingy uplifting finish - energy rub to soles of feet and back of neck . Phew and all of this leisurely fitted into my hour lunch break - and the name? Vitru.

So guys crack the Da Vinci code and become a new man quite literally. Check out the Vitru treatment at Bellissimo - Tel: 01633 255333 now for an appointment.

Find your heaven!

Natural ingredients have been used in beauty products since time began with many of their properties proven to work miracles on problem areas.

Taje Temple of Beauty in Newport is leading the way in pure spa blends and has become one of the first salons to use Find... a selection of products and treatments originated from natural ingredients.

For more information or to Find your natural beauty book an appointment at Taje - call 01633 859189.

Prevention Is Better Than Cure

None of us wants skin that reflects our lifestyle: whatever your vices they show on your skin: smoking drinking, partying. Instead of packing in your fun why not prevent aging with the help of some of these fab SkinCeuticals products which are available from AMA.

These products have been developed to provide the most advanced protection from environmental aging by helping prevent Photo-aging in skin.

Just in time for summer SkinCeuticals have also introduced a range of high-protection sun-blocks which protect the skin from UVA rays, which have been proven to prematurely age skin.

For more information on these fab products or to get your hands on them call AMA on 01633 431393 or surf to www.skinceuticals.com
